

## CONNECTIONS

### A Multicultural, Environmental Leadership Program

**Lead Supporter: Cenovus Energy**

**Suitable for: Senior High**

In partnership with SEEDS, the Connections Education Society is expanding the CONNECTIONS Program to students throughout Alberta for 2010/2011.

Participation in the CONNECTIONS program enables students to develop their leadership abilities while exploring issues of human and environmental diversity. This leading edge program provides opportunities for students to learn about cross-cultural concerns, environmental sustainability, and the diverse nature of our world. The CONNECTIONS Program includes three components: pre-trip online work and activities, four day residential experience and post-trip online work culminating with a final student designed and led school/community-based project.

- Expand awareness of diversity issues
- Enhance understanding of multicultural and environmental concerns
- Empower students to utilize their personal leadership skills
- Initiate activities to affect positive change

To get your students involved: email [gtaven@seedsfoundation.ca](mailto:gtaven@seedsfoundation.ca) or call 1-800-661-8751
